For users
Requiring
**MAXIMUM
ASSISTANCE**

- **The ideal solution** for simple transfers between car and chair, chair and bed, and from floor to chair.
- **Allows more dynamic positioning**, adjustment and control during transfer than with typical lift designs.
- **Portable and foldable** for easy transport and storage.
- **Safe, reliable, and easy operation:** 350 lb (160 kg) safe working load; simple charging, 3-year warranty.

SPAN
better science. better care.

F350CT Car Transfer Patient Lift

Created primarily for safe, controlled transfers into and out of a car—but with the flexibility for much more! Unique spreader bar design enables precise, controlled positioning with minimal motion.

Folds flat for easy transport and storage.

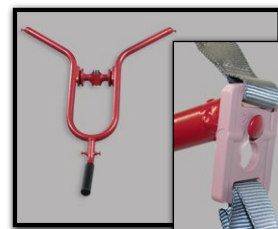

Foot pedal base width adjustment.

2-button pendant with LED indicator.

Underbed clearance allows use with most low beds.

4-point spreader bar with "clip" sling attachment.

SPECIFICATIONS	
Weight Capacity	350 lb / 160 kg
External Base Width (closed)	27.6"
Internal Leg Width (opened)	32.0"
Mast Height	47.3"
Overall Base Length	41.0"
