

Innovative, Lightweight Wheelchair Lift

Lightweight, non-powered solution for manual folding wheelchairs. Innovative tilting joint helps the wheelchair roll on/off easily; adjustable hold-down arm safely secures it. Compact design folds down for tail gate / lift gate access, folds up when not needed.

Features & Benefits

- Tilting joint for roll-on ease
- Adjustable hold-down arm
- Folds to access tail gate / lift gate; folds up when not in use
- No chair modifications required
- Ball mount standard; upgrades available
- No hitch post needed with ball mount
