Molly (pictured above), was injured in 2009 and is a single mother of two young, active boys. She works part-time as an estimator at a high-end construction company and is also an active member of her church. Most importantly, however, Molly stays busy as a full-time mom, participating in and enjoying extracurricular activities with her sons. As a prior competitive swimmer and runner, she also takes advantage of every opportunity to participate in accessible sporting events, including water skiing, surfing and biking.

Allen (MX1 Back Model, front cover and page 04) is truly an example of hard work paying off. He is currently employed full time as a Sales Manager, and also works with various companies in the wheelchair industry as a Relationship Manager. When Allen is not working hard in his day jobs, he is spreading smiles at local comedy clubs. He performed "stand up" for the last three years, pursuing the adrenaline rush that he once enjoyed as a semi-professional snowboarder. Understanding that giving time is the greatest gift of all, Allen (with best friend Murphy – also pictured) spends one night every week at Rady's Children's hospital in San Diego running a playroom for patients. He received "the Golden Pin" award for his 5+ years of volunteering.

INVACARE® MATRX®
SEATING
SERIES

With the number of new seating and positioning products available today, it is only natural to choose the best known products. Invacare Corporation and Motion Concepts have joined forces and have combined product portfolios to offer the Invacare Matrx Seating Series- simple and yet highly effective solutions to meet the widest range of user needs. This catalog is the source for the Invacare Matrx Seating Series.

Invacare is committed to providing products that exceed expectations. As the landscape of seating changes, Invacare's dedication to innovation, quality and, most of all, comfort will stay the same.

INVACARE® MATRX®

M X 1
BACK

The latest in back support technology combines aesthetic appeal with superior positioning and function. The full range of patent-pending hardware options ensures optimal adjustment for the widest range of applications, while the lightweight carbon fiber shell provides exceptional support and durability. The **Invacare® Matrx® MX1 Back** is designed for active individuals who demand peak performance and great looks.

Features and Functional Benefits

Carbon Fiber Back Shell - Durable solid carbon fiber shell provides controlled flex to reduce vibration. Contoured to provide hip/trunk stability and enhance upper extremity mobility and function. Very light weight and aesthetically appealing.

Cover - Breathable, attractive spacer mesh fabric. Cover and foam overlap the shell edge to protect the user.

Adjustable Sacral/Lumbar Support - Includes lumbo-sacral support that is easily adjustable to meet individual needs.

Mounting Hardware

Mono Mount (Patent Pending) - Attaches to wheelchair rigidizer bar providing complete clearance from back canes for optimal propulsion and reach. Fully angle adjustable, remains securely fastened in desired position and included track provides height adjustment. Fits rigidizer bars ¾" diameter, optional $7/8$" and 1" band clamps available.

Fixed Dual Mount (Patent Pending) - Attaches to wheelchair back canes (requires tools for removal). Fits back canes 1" in diameter - optional ¾" and $7/8$" diameter band clamps available. Attractive, low profile hardware with no sharp edges. Adjustable width to fit wheelchairs 1" wide or 1" narrower than back width, providing optimal fit and support to user.*

Quick Release Dual Mount (Patent Pending) - Back cane mounting hardware with quick release tabs for easy removal from wheelchair. Includes band clamps to fit ¾", $7/8$" or 1" diameter back canes. Attractive, low profile hardware and 2" adjustable width.*

HCPCS Code: E2615

1. 3" Contour Depth
2. Mono Mount (Patent Pending)

INVACARE® MATRX®
ELITE
BACK

The **Invacare® Matrx® Elite Back** is designed to provide precise orientation within the wheelchair for optimal postural support. The attractive, lightweight design appeals to individuals with active lifestyles.

Features and Functional Benefits

Outer Cover - Oversized cover/foam for extra comfort and skin protection. Moisture resistant and breathable. Optional privacy flap available.

Hardware - "Easy Set" hardware installs and adjusts in minutes – adjustments can be made while individual is seated in the wheelchair. Refer to pages 14/15 for additional hardware options available upon request.

Back Shell - Stylish, breathable and lightweight back shell.

Adjustable Lumbo-Sacral Support - Includes removable positioning pad.

Headrest Adapter - Mounts directly onto Invacare Matrx Elite Back. Pre-drilled to accept headrest hardware. Available upon request.

Optional Lateral Supports - Fixed - 2.5" of vertical adjustment on back pan. Mounts inside back shell without interfering with depth/angle adjustment. Available in standard 5" H x 7.5" L and pediatric 3" H x 5.5" L sizes.

Offset Fixed - Provides an additional 3" of vertical position (higher or lower) relative to mounting slots. Available 5" H x 7.5" L.

Swing-Away - 2.5" of vertical adjustment on back pan. Mounts inside back shell without interfering w/depth/angle adjustment Easy push button release, 4 pad sizes (see below).

Offset Swing-Away - Provides an additional 3" of vertical position (higher or lower). Mounts inside back shell without interfering with depth/angle adjustment. Easy push button release, 4 pad sizes (see below).

Lateral pads For Swing away laterals - **XS**: 3.25" H x 4.25" L, **S**: 3.5" H x 5.25" L, **M**: 3.75" H x 5.75" L, **L**: 4.25" H x 6.5" L

INVACARE® MATRX®

PB
BACK

The **Invacare® Matrx® PB Back** is contoured to provide midline support and positioning. The extensive range of sizes provides exceptional support and comfort for a variety of individuals.

Features and Functional Benefits

Foam - Molded foam made with Ultra-Fresh™ for antibacterial and odor protection wraps around shell for maximum comfort and protection. Foam attaches to back shell via hook and loop strips for easy replacement.

Outer Cover - Moisture resistant and breathable. Available in black or Kid*ab*ra print.

Hardware - "Easy Set" hardware is easily installed and adjusted in minutes – adjustments can be made while individual is seated in the wheelchair. Refer to pages 14-15 for additional hardware options (Available upon request).

Back Shell - Contoured shell provides exceptional midline support and positioning. Durable, lightweight ABS back shell includes built-in plate for headrest attachment. Heavy-Duty sizes (20" wide and up) include an aluminum back shell.

Visco Foam Upgrade - Laminate of 0.5" high resilient foam and 0.625" Visco Foam. Available on Invacare Matrx PB and Elite Backs. Molded foam is not available on Invacare Matrx PB Back with this option.

Removable Lumbo-Sacral Support - Includes lumbo-sacral support that is easily adjustable to meet individual's needs.

Foam-in-Place Kit - Individually molded insert produced in minutes with user seated in back. Optional high stretch cover available.

Privacy Flap - Optional privacy flap is available.

EASY SET HARDWARE

The **Invacare® Matrx® Easy Set hardware** is simple and easy to install, and all adjustments can be made with the individual seated in the wheelchair.

Features and Functional Benefits

Quick release for easy removal/portability.

Infinite adjustment of depth (4"), angle (40°) and rotation.

Fits ¾", ⅞" and 1" diameter back canes.

Hardware to fit 1 ⅛" diameter canes also available.

Styles: The following styles of the Invacare Matrx Backs are interchangeable on the Easy Set Hardware.

1. Invacare® Matrx® Elite Back
2. Invacare® Matrx® Elite Deep Back
3. Invacare® Matrx® PB Back
4. Invacare® Matrx® PB Deep Back
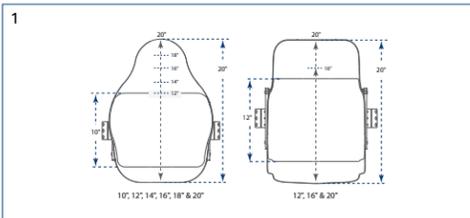

1. **Heights**
   The Easy Set hardware accommodates a wide range of back heights to meet the support needs of the individual.
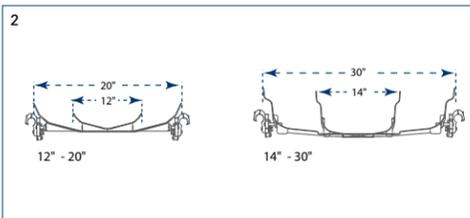

2. **Widths**
   The Easy Set hardware fits back widths from 12"-30" to provide exact fit for each individual.
   Heavy-Duty Easy Set hardware is standard for back widths from 22"-30".
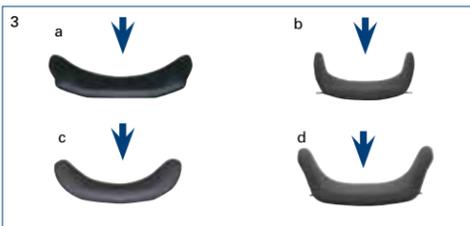

3. **Contour Depth**
   The Easy Set hardware accommodates all four back shell styles with four choices of contour depths for appropriate midline support requirements.

   a. Invacare® Matrx® Elite Back - 3" Contour Depth
   b. Invacare® Matrx® Elite Deep Back - 6" Contour Depth
   c. Invacare® Matrx® PB Back - 5" Contour Depth
   d. Invacare® Matrx® PB Deep Back - 7" Contour Depth

1. **Depth**
   Adjusts 2" behind back canes.

2. **Depth**
   Adjusts 2" in front of back canes.
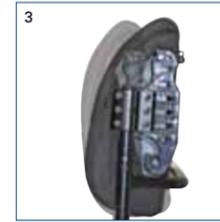

3. **Angle**
   40° range of anterior/posterior adjustment.

4. **Angle**
   40° range of anterior/posterior adjustment.

Rotation
Back may be oriented to accommodate pelvic/trunk rotation.

1. **Standard Mounting Pins**
   Standard mounting pins included with all Invacare® Matrx® PB and Invacare® Matrx® Elite backs. Allows the PB Back to fit chairs 1" narrower or same model width. Allows the Elite Back to fit chairs the same width.

2. **Longer Mounting Pins**
   Longer mounting pins included with all Invacare Matrx PB/Elite backs allow the Invacare Matrx PB and Elite Backs to fit chairs 1" wider.
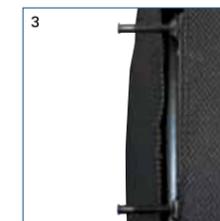

3. **Extended Mounting Pins**
   Extended mounting pins available for Invacare Matrx PB & Elite Backs allows the back to fit chairs up to 2" wider.

   (Not available on backs with greater than 300 lb. weight capacity.)

4. **Extended Range Mounting Hardware Upgrade**
   Provides 1.75" of additional depth adjustment compared to the standard mounting hardware. Available on all models of PB Backs and Elite Backs – Easy Set, Heavy-Duty or Fixed Space Saver hardware.
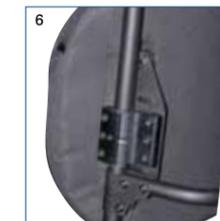

5. **Heavy Duty Easy Set Mounting Hardware**
   Standard with Heavy-Duty Posture Backs. Recommended for users over 300 lb., high tone or heavy use.

6. **Fixed Space Saver Mounting Hardware**
   Requires tools for back removal. Saves space for tighter width applications. Fully adjustable. Recommended for power wheelchair application. Available as a no charge option at the time the back is being ordered.

7. **Split Mounting Hardware**
   Provides clearance of mid back cane rigidizer bars. Also allows Invacare Matrx Backs to mount without interference of cantilever armrests. Available as a no charge option at the time the back is being ordered. Not recommended for Invacare Matrx Backs wider than 20". (Not available on backs with greater than 300 lb. weight capacity.)

8. **Extended Shear Reduction Mounting Hardware**
   Allows all Invacare Matrx backs to be mounted directly to Motion Concepts TRx seating with Power Recline and ESR.

INVACARE® MATRX®
VI
## CUSHION

The **Invacare® Matrx® Vi Cushion** is designed to provide skin protection and positioning for individuals at moderate to high risk of skin breakdown. The unique three part foam construction targets skin protection where it is needed most, and features excellent stability, support and comfort.

Features and Functional Benefits

Outer cover - Moisture resistant and breathable. Includes slip resistant base, hook and loop fasteners, lifting strap. Available in black and Kid*ab*ra print.

Inner cover - Moisture resistant. Easily wipes clean. Zippered cover allows access for cushion modifications.

Top layer - Soft (ILD) High Resilient (HR) foam for optimal comfort and support. Pre-ischial contour provides stability to pelvis. Abductor/adductor contour promotes midline leg positioning. Made with Ultra-Fresh™ for antibacterial and odor protection.

Visco foam insert - Molded visco-elastic foam ischial relief insert. Anatomically targeted to ischial/sacral area. Provides immersion to sensitive bony prominences.

Bottom layer - Firm (ILD) High Resilient (HR) foam for support and durability. Trochanteric shelf provides stability to hips. Waterfall front edge. Rear radius for sacral support.

Drop Base - Includes built-in drop base, drop hooks, DuraClip fasteners. Allows adjustment of seat angle.

Pelvic Obliquity Kit - Easily installed on all Invacare Matrx Vi/Kid*ab*ra-Vi cushions/bases. Accommodates 0.5" or 1" obliquities.

Custom Modifications - Leg length discrepancies, width/depth reductions. Foam, inner and outer covers modified to your specifications.

Cushion Ridigizer - Lightweight, slim profile solid seat insert. Contoured to eliminate "hammock effect" of sling upholstery.

HCPCS Code: E2607/E2608

INVACARE® MATRX®
FLOVAIR™
CUSHION

The **Invacare® Matrx® Flovair™ Cushion** is designed to provide pelvic stability, leg positioning and pressure management for users with postural asymmetry and skin integrity issues. The Invacare Matrx Flovair Cushion begins with the base for comfort, stability and function. This hybrid cushion captures the stability of foam, the pressure redistribution of air and the shear management of fluid.

Features and Functional Benefits

Outer cover - Moisture resistant and breathable. Includes non-slip base, hook and loop fasteners and a lifting strap.

Inner cover - Moisture resistant. Easily wipes clean. Zippered cover allows access for cushion modifications.

Fluid overlay - Works in tandem with the Invacare® ThinAir™ bladder to maximize surface area for optimal pressure redistribution. Shear management as the two layers work in harmony without weight penalty. Compensates for different body types as fluid/air layers envelop body contours.

ThinAir bladder - Comfort layer assists in redistributing peak pressures away from bony prominences. Helps manage shear forces.

Positioning foam base - Waterfall front edge. Soft foam allows immersion of pelvis for comfort and stability. Medial and lateral thigh supports facilitate positioning and alignment of lower extremities. Trochanter cutouts facilitate proper pressure redistribution and comfort. Firm foam inserts under the cutouts add support. Posterior pelvic support provides pelvic control that is required for stability and function. Sacral cutout provides additional comfort and support for those sitting in a posterior pelvic tilt. Gentle or max contour choices based on need for gentle or high level of posture control.

Removable leg wedges - Allow lower seat-to-floor height for foot propellers. Accommodates limited hip flexion by opening up seat-to-back angle.

Pelvic Obliquity Kit - Easily installed on Invacare Matrx Flovair cushions. Accommodates 0.5" or 1" obliquities.

Cushion Ridigizer - Lightweight, slim profile solid seat insert. Contoured to eliminate "hammock effect" of sling upholstery.

INVACARE® MATRX®

PS

CUSHION

The **Invacare® Matrx® PS Cushion** is an exceptionally lightweight cushion designed to provide superior positioning, stability and comfort. The design features an anatomically contoured shape with a unique waffled ischial relief recess and an innovative reversible outer cover. It is a great choice for a very wide range of individual needs, including pediatric, geriatric, bariatric and highly active individuals.

Features and Functional Benefits

Reversible outer cover - Innovative reversible Dartex® outer cover may be used smooth or fabric side out. Dartex® fabric is moisture proof and breathable. Hook and loop fastener strips.

Inner cover - Moisture resistant. Easily wiped clean. Zippered cover allows access for cushion modifications.

Cushion Foam - Durable high resilient foam prevents "bottoming out." Anatomically molded shape for optimal positioning & comfort. Rear radius for sacral support. Waterfall front edge. Made with Ultra-Fresh™ for antibacterial and odor protection.

Ischial relief area - Waffled recess provides immersion of bony prominences. Helps maintain pelvic position and prevent sliding.

Custom Modifications - Leg length discrepancies, width/depth reductions. Foam, inner and outer covers modified to your specifications.

Cushion Ridigizer - Lightweight, slim profile solid seat insert. Contoured to eliminate "hammock effect" of sling upholstery.

Pelvic Obliquity Kit - Easily installed on Invacare Matrx PS cushions. Accommodates 0.5" or 1" obliquities.

INVACARE® MATRX®
STABILITE™
CUSHION

The **Invacare® Matrx® Stabilite™ Cushion** is developed to provide pelvic stability and leg positioning for individuals with postural asymmetries. The Invacare Matrx Stabilite Cushion comes fitted with a patented Invacare® ThinAir™ bladder, a unique comfort layer that assists in shear management. The Invacare Matrx Stabilite Cushion begins with the base for comfort, stability and function.

Features and Functional Benefits

Outer cover - Moisture resistant and breathable. Includes non-slip base, hook and loop fasteners and a lifting strap.

Inner cover - Moisture resistant, Easily wiped clean, Zippered cover allows access for cushion modifications.

Invacare® ThinAir™ bladder - Comfort layer assists in redistributing peak pressures away from bony prominences. Helps manage shear forces.

Positioning foam base -Soft foam allows immersion of pelvis for comfort and stability. Medial and lateral thigh supports facilitate positioning and alignment of lower extremities. Trochanter cutouts facilitate proper pressure redistribution and comfort. Firm foam inserts under the cutouts add support. Posterior pelvic support provides pelvic control that is required for stability and function. Sacral cutout provides additional comfort and support for those sitting in a posterior pelvic tilt. Waterfall front edge.

Cushion Rigidizer - Lightweight, slim profile solid seat insert.Contoured to eliminate "hammock effect" of sling upholstery.

Removable Leg Wedges - Allow lower seat-to-floor height for foot propellers. Accommodate limited hip flexion and opens up seat-to-back angle.

Pelvic Obliquity Kit - Easily installed on Invacare Matrx Stabilite cushions. Accommodates 0.5" or 1" obliquities.

HCPCS Code: E2605/E2606

INVACARE® MATRX®
FLO-TECH
CUSHION

The **Invacare® Matrx® Flo-tech Cushion** uses a combination of molded foam and dual layer fluid sacs to provide the highest level of skin protection for individuals with high risk of skin breakdown. The Fit Kit components are available to address individual postural requirements.

Features and Functional Benefits

Outer cover - Moisture resistant and breathable. Includes non-slip base, hook and loop fastener strips and a lifting strap. Expandable cover facilitates use with Fit Kit components.

Platilon liner - An additional layer of moisture protection.

Fluid sac - Unique dual-layer fluid in ischial/sacral area to help prevent bottoming out. Non-temperature sensitive fluid resists freezing. No kneading or maintenance required.

Foam base - High quality, comfortable, resilient foam base made with Ultra-Fresh™ for antibacterial and odor protection. Molded in hook and loop fastener strips for secure attachment of Fit Kit components. Pre-ischial contour, trochanteric support and sacral support.

Fit Kit Components

Tapered wedges - Accommodates mild pelvic rotation, mild hip flexion discrepancies or increased adductor contour.

Fluid supplement - May be placed to provide pelvic obliquity accommodation or increased sacral/ischial immersion.

Pelvic obliquity build-up - Accommodates obliquities up to 1". For correctable obliquities use under low side of pelvis and for fixed obliquities use under high side of pelvis.

Adductors - Front: provides increased adductor contour to thighs. Rear: provides increased adductor contour to hips.

Seat wedges - Increases degree of pre-ischial and contour angle to help prevent sliding.

Hemi wedge - May be used to provide increased support to one lower extremity – useful for clients who use foot propulsion or with hip flexion limitations.

Abductor - Small: provides 0.75" increased height of abductor contour. Large: provides 2" increased height of abductor contour.

Tapered wedges - Accommodate mild pelvic rotation, mild hip flexion discrepancies or increase adductor contour.

Fluid supplement - May be placed to provide pelvic obliquity accommodation or increased sacral/ischial immersion.

GENERAL USE

CUSHIONS AND BACKS

The **Invacare® Absolute™ Cushion** offers a simple and comfortable solution for individuals with mild support and positioning needs. This cushion is designed to provide basic comfort using highly resilient foam and is intended for individuals who are able to perform their own weight shift for pressure relief.

Features and Functional Benefits

Lightweight Molded Polyurethane foam - Provides comfort and durability.

Gentle Contour - For comfort and centering in the seat.

Shaped cushion bottom - Allows use of cushion on taut sling upholstery.

Outer cover - Breathable water repellent cover to protect foam and keep the consumer dry. Mesh fabric effectively dissipates heat and moisture.

Non-slip bottom - Keeps cushion secure and in place.

HCPCS Code: E2601

The **Invacare® Single Density Cushion** offers a simple and comfortable solution for individuals with mild support and positioning needs. This cushion is designed to provide basic comfort using highly resilient foam for pediatrics to geriatrics. Available in an extensive range of sizes.

Features and Functional Benefits

Lightweight contoured foam with deformation cut - Provides comfort and stability to the individual.

Outer cover - Durable water repellent cover to protect foam and keep the consumer dry.

HCPCS Code: E2601/E2602

The **Invacare® Comfort-Mate Extra Cushion** offers simple but comfortable solutions for individuals with mild support and positioning needs. This cushion goes one step further with a comfortable, molded design and a durable moisture-resistant coating. Ideal for individuals who are able to perform their own weight shifts for pressure relief, who need comfort, stability and gentle positioning.

Features and Functional Benefits

Low profile, lightweight cushion - Designed for long-term sitting comfort and easy lateral transfers.

Molded dual-firmness polyurethane foam - Soft top layer provides exceptional comfort and firmer bottom layer stabilizes and supports the pelvis.

Contoured seating surface - Promotes neutral leg positioning while providing gentle positioning.

Beveled sides - Allows use with a drop seat.

Moisture resistant coating - Seals and protects foam from moisture; easily wipes clean.

*Outer cover* - Breathable water repellent cover to keep the user cool and dry.

HCPCS Code: E2603/E2604

The new adjustable tension **Invacare® Versair™ Back** is designed for positioning and comfort, offering versatile and beneficial solutions for individual seating needs. The Invacare Versair Back is lightweight and provides comfort and support with optimal positioning when standard sling upholstery does not meet an individual's need.

Features and Functional Benefits

Comfortable padded upholstery - Slim profile that does not sacrifice seat depth.

Mesh upholstery - Wicks away heat and moisture for improved airflow between user and the back and provides added comfort.

Alternating 2" tension straps - Easy to adjust as needed to provide optimal postural support and pelvic support/stability.

Easy Mounting - Secure and easy fit around canes using hook and loop straps. Additionally, the back easily folds with the chair for transport.

HCPCS Code: E2611/E2612

The **Invacare® Matrx® Genera™ Back** provides postural stability, mild lateral contour and comfort through a hard-shell back so that no individual needs to make do with sling upholstery.

Features and Functional Benefits

Outer cover - Attractive, water resistant and breathable cover, vinyl backed.

Back shell - Sturdy contoured shell with 3" of contour depth, durable plated steel hardware. Built-in T-nuts for headrest attachment.

Hardware - Hardware adjusts to fit the chairs nominal width and 1" wider than back model width. Provides 1" depth and 20° recline adjustability.

Quick release hardware for easy removal.

INVACARE® MATRX®
ACCESSORIES
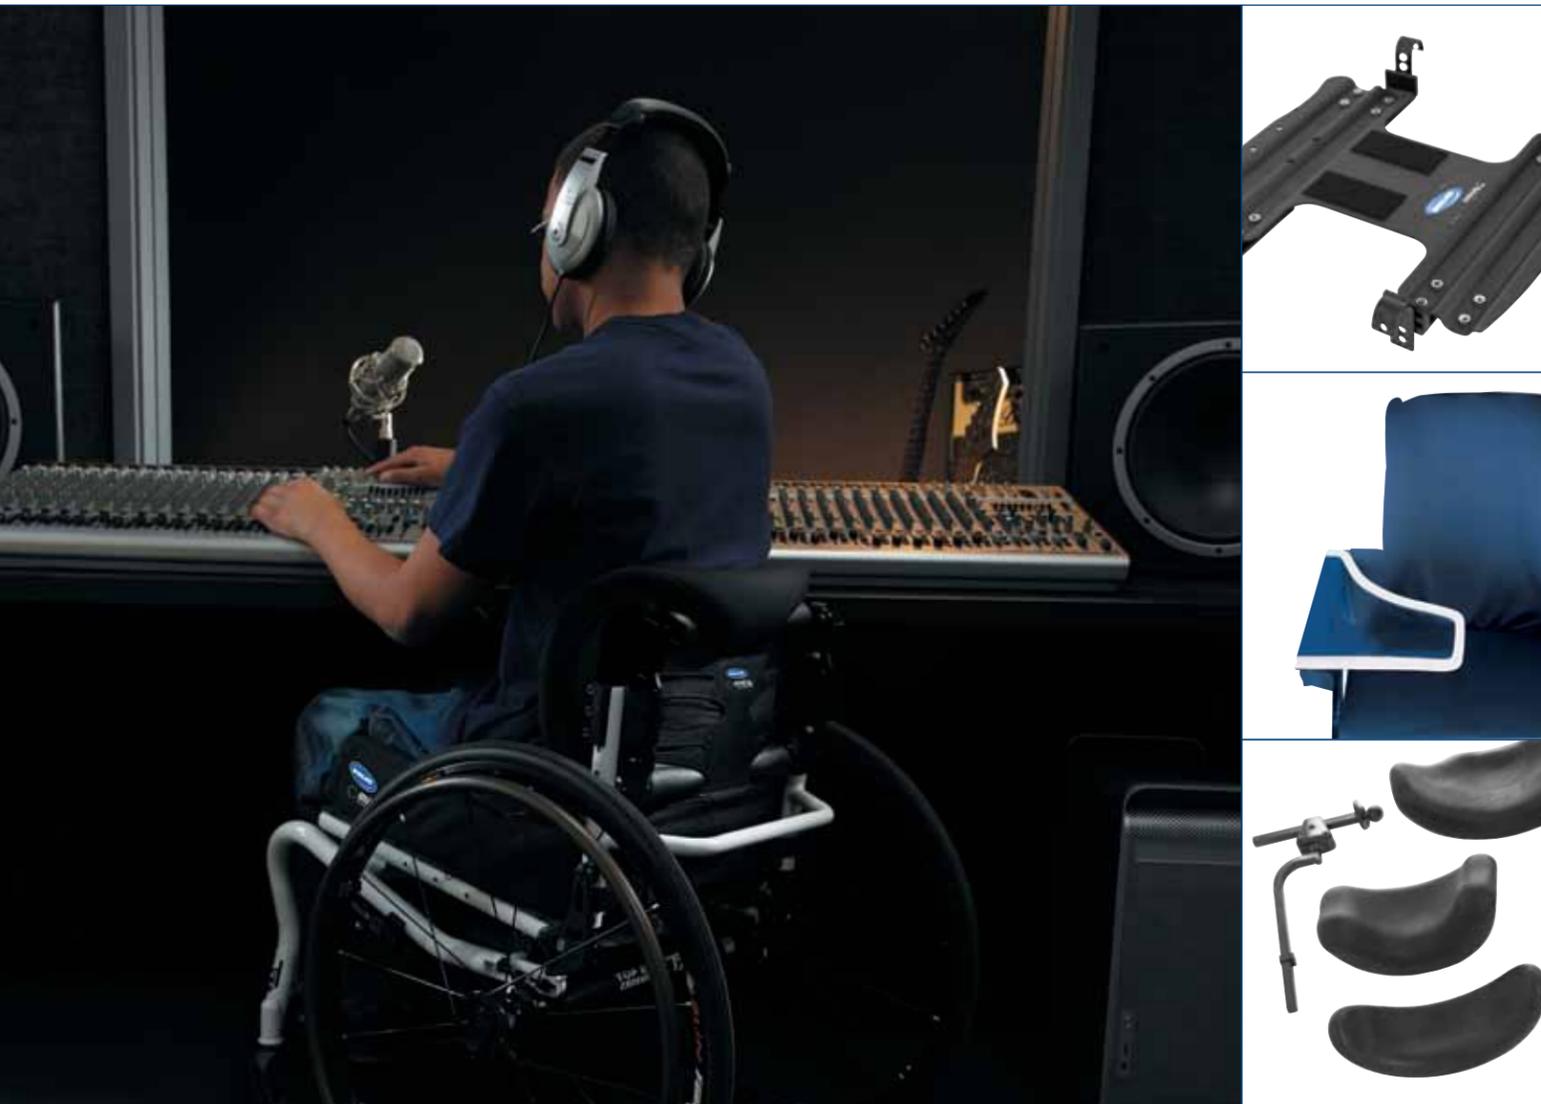

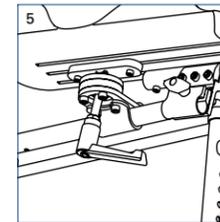

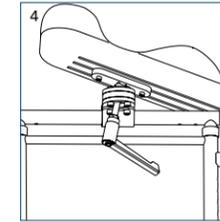

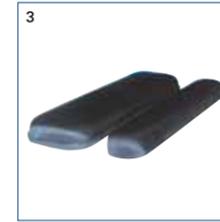

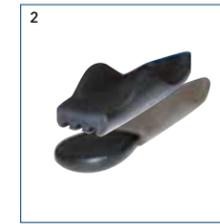

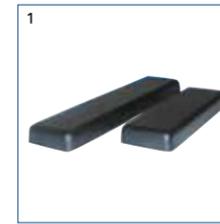

1. **Multi-position arm pads**
   Soft, gel-like feel provides extra comfort and protection for arms.
   Highly durable skinned polyurethane resists cracking and peeling.
   Triple track extrusion allows adjustability of mounting position and attachment location for other accessories.
   3" wide; desk length 10" or full length 14".

2. **Ergonomic arm trough/hand pad kit**
   Molded, skinned polyurethane fits the natural arm curvature.
   Unique cut-out at elbow provides users with flexibility of various arm positions.
   Triple track extrusion allows a variety of mounting positions.
   Complete with flat hand pad or interfaces with other manufacturer's hand pieces.

3. **Gel arm pads**
   Fabric covered polymer gel arm pads.
   Provides extra protection for highly sensitive arms.
   Available in 3 models: Std. Narrow: 2" W x 12" L
   Std. Wide: 3.5" W x 12" L
   Long Wide: 3.5" W x 14" L

4. **Multi-Axis Armrest Mount**
   Allows infinite adjustment of angle and rotation of arm pad.
   Interfaces with multi-position arm pad.

5. **Joystick Mounting Bar for Multi-Axis Armrest Mount**
   Available for 3/4" or 7/8" joystick bar size.

Head Support Accessories
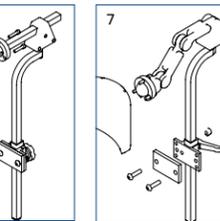

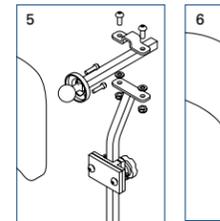

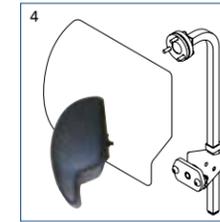

1. **Otto Bock™ Head Support**
   Easy to clean self skinning polyurethane foam.
   Anatomically shaped to provide lateral flexion control.
   7" W x 5" H or 9" W x 6" H

2. **Standard**
   Easy to clean self skinning polyurethane foam.
   Gentle lateral contouring.
   6.5" W x 7" H

3. **Stealth Comfort Plus**
   Soft, comfortable layered foam on coated metal shell.
   Removable, washable cover.
   Four pad sizes: 8", 10" or 14" W x 6" H and 6" W x 3.75" H

4. **Head Support Kit:**
   Onyx auto style kit
   8" W x 8" H x 4" T
   Onyx leatherette cover & auto-style contouring.
   Dual pivot ball for pad orientation.
   Limited adjustability – recommended for Contour or High backs.
   Height adjustable.
   Includes fixed mount clamp.

5. **Standard Hardware**
   Comes standard with Otto Bock™, Standard and Stealth Comfort Plus Pads.

6. **Multi-Axis**
   Upgrade option for Otto Bock, Standard and Stealth Comfort Plus pads.
   Dual pivot linkage for pad orientation.
   Depth adjustable through horizontal slide bar.
   Height adjustable.
   Includes mounting clamp for attachment to back with knob style release for headrest removal.

7. **Stealth "World's Best"**
   Upgrade option for Otto Bock, Standard and Stealth Comfort Plus Pads.
   Dual pivot balls for pad orientation.
   Depth adjustable through dual link system.
   Height adjustable.
   Includes mounting clamp for attachment to back with latch style release for headrest removal.

Other Seating and Positioning Accessories
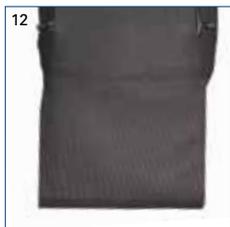

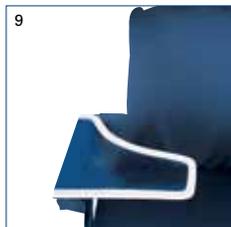

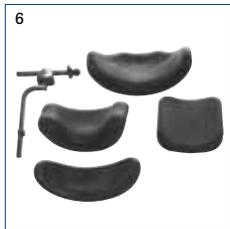

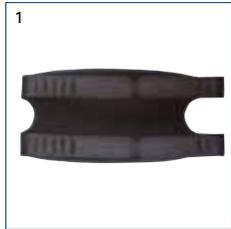

1. **Air Mesh Calf Strap**
   Available in 4 sizes: M, L, MD, LG
   For 15" – 18" W chairs
   M: 3.5" H
   MD: 9" H
   For 18" – 22" W chairs
   L: 3.5" H
   LG: 9" H

2. **Padded Lap Belts**
   2" wide belts, comfortable padding.
   Center pull tightening, push release buckle.
   2 or 4 point attachment.

3. **Cushion Rigidizer**
   Lightweight plastic seat insert fits between seat rails for level support and eliminates hammock effect of seat upholstery. Securely attached to bottom of cushion inside cushion cover.

4. **Drop Base**
   Provides stable support base for the cushion.
   Lowers seat-to-floor height which aids in foot propulsion, opens up seat to back angle, allows easy lateral transfers and improves basic functionality when in a seated position.
   Width adjustable: Three sizes fit wheelchairs from 14" to 22" wide.
   Height and angle adjustable: up to 2" of drop provided.
   Portable quick-release hardware allows easy removal of base from wheelchair.

5. **Basic Headrest**
   Padded to provide comfortable occipital support with horizontal and vertical adjustable hardware and outer cover easily removes for laundering.

6. **Adjustable Headrests**
   Contoured head and neck supports available in four styles.
   Dual-ball swivel hardware for multi-plane adjustment.
   Durable steel reinforced polyurethane pads - easily wipe clean.

7. **Full Tray - Slide-on Mount**
   Break-resistant clear polyester resin tray surface.
   Width adjustable mounting hardware securely fastens tray to chair arm pads.
   Molded-in rim helps keep items on tray.

8. **Full Tray - Hook and Loop Mount**
   Lightweight and easy to handle with break-resistant clear polycarbonate tray surface.
   Easily attaches to chair armrest with hook and loop straps.
   Removable trim allows thorough cleaning.

9. **Half Tray - Swingaway**
   Break-resistant clear polycarbonate tray surface.
   Tray securely bolts to wheelchair armrest and is durable.
   Tray easily swings away when not in use and molded-in rim helps keep items on tray.

10. **Foam-In-Place Kit**
    Easy-to-use Foam-in-Place kit provides custom foam mold insert in minutes.
    Provides additional support and positioning for users who need a more custom fit.
    Custom-molded insert can be easily removed for modification or remolded to meet the changing needs of the user (Can be used with Invacare® Matrx® Personal Back™10, Personal Back™10 Plus, PB and PB Deep Backs).

11. **Belts and Straps**
    Three sizes of shoulder supports fit child, junior and adult.
    Three sizes of padded lap belts fit child, junior and adult; pinch release buckle.
    Push-button style release provides secure attachment.
    Three sizes of four-point lap belt to fit child, junior and adult; push button release buckle.

12. **Privacy Flaps**
    The Privacy Flaps interface with the Invacare Matrx PB, Invacare Matrx PB Deep, Invacare Matrx Elite, Invacare Matrx Elite Deep and Invacare Matrx MX1 Backs, up to 20" widths. They are designed to cover the gap between the bottom of the backrest and the seat pan and attach with hook and loop fasteners. Four standard sizes are available to fit backs up to 20" wide. Privacy flaps for backs 21" and wider are available as options in the back configurator.
