

ROHO® RETROBACK® BACK SUPPORT SYSTEM

EASY CLIP DESIGN

NO TOOLS OR HARDWARE

IMPROVES COMFORT

SUPPORTS POSTURE

Ease of use and instant comfort –that’s the promise of the new Retroback from The ROHO Group. This unique new back support system simply clips to the existing sling upholstery to improve comfort and support posture. Remove the Retroback by simply lifting it off the upholstery. No tools or hardware required!

The simple yet functional design provides rigidity to compensate for sagging sling wheelchair back upholstery, while increasing sitting tolerance and reducing lower back fatigue.

The quality and innovation you expect from ROHO – at an affordable price.

RETROBACK® BACK SUPPORT SYSTEM

UNIQUE CLIP ON / CLIP OFF DESIGN

Most back supports require that you remove the existing upholstery and replace it with a solid back support through the use of tools and mounting hardware. Not the case with Retroback. Simply clip Retroback onto the existing sling upholstery and lift it off every time a wheelchair needs to be folded or stored.

DURABLE YET LIGHTWEIGHT.

This rugged back support system weighs only 3 pounds, making it easy to attach and remove from a wheelchair. The removable, water-resistant cover is made of a flexible, durable, washable fabric.

IMPROVES COMFORT AND SUPPORTS POSTURE.

Retroback also provides support and comfort with only minor compromise to seat depth since the back support is positioned between the wheelchair back posts. ROHO's Retroback complements a wide assortment of ROHO cushions.

APPLICATIONS

THE RETROBACK BACK SUPPORT SYSTEM IS MOST EFFECTIVE FOR:

- users who require basic posture support and comfort
- users whose mobility is minimally or moderately impaired
- facilities who use products with multiple patients

FEATURES & BENEFITS
